

Product name: ENDORFY GEM Plus Wireless
Product code: EY6A013

The ENDORFY GEM Plus Wireless is a king among peasants. Adorned with a regal [ARGB](#) backlight and equipped with top-notch components – it's a complete package, conveniently made wireless.

Inside the ENDORFY GEM Plus Wireless beats a powerful PixArt PAW3395 heart – the newest, top-of-the-line sensor offers an unparalleled maximum sensitivity of 26 000 DPI. To put it into perspective: you can quite literally shoot it out of a slinger, and it still won't miss a beat. With the super-fast [and durable](#) Kailh GM 8.0 switches, the ENDORFY GEM Plus Wireless brings a winning combo of both style and speed to the table.

Invincible sensor

There can only be one winner – and it's clearly the PixArt PAW3395. This top-of-the-line [player component](#) works with up to 26 000 DPI, turning subtle mouse movements into wide maneuvers on the screen. Simply put, you won't fall off the mousepad again during a virtual battle.

While it's an absolute beast, it's also PixArt's most energy-efficient sensor up to date. This allows you to work or play [longer](#), without having to constantly worry about the battery life. And to ensure the best fit possible, you can adjust Lift-Off distance, polling rate, and even debounce time for that extra edge against your opponents. Imagine the possibilities!

Full-bodied, but lightweight

The GEM Plus Wireless is the best of both worlds: full-bodied, but lightweight. Despite the solid housing, the mouse weighs only 74 g – battery included. And since it's wireless, no cable will stand in your way either.

The GEM Plus Wireless is our nod to all the technology heroes who prefer a more [classic](#) design but without compromises. The closed case is extremely durable and abrasion-resistant – manufactured with the same Double Shot technology known from the long-lasting PBT keycaps.

The equipped PTFE mouse feet give it minimal resistance, ensuring effortless steering and further increasing the accuracy of your ~~shots~~ [clicks](#).

Kailh GM 8.0 FTW

The best companions are not only loyal but also skilled – that's why we outfitted the GEM Plus Wireless with the ultra-fast and long-lasting Kailh GM 8.0 microswitches. You can rely on them in any [& all](#) battles to come.

The Kailh GM 8.0 have quickly gained notoriety among tech enthusiasts and gamers around the globe. They're fast, battle-proven, and durable – with a lifespan estimated at [80 m](#) clicks. If you're in the market for reliable microswitches that'll last years, then place your bets on the Kailh GM.

Off the leash <3

The early bounds of your desk no longer apply – take it where your conquest takes you (including your couch). The convenience of the GEM Plus Wireless is

hard to overstate.

You might instantly develop an allergy to cables. Consider yourself warned. 2.4 GHz wireless connectivity ensures a stable connection with 100% precision and 0 delays, giving you the edge in any duel. Just sit down and do your thing, wherever. All you need to do is plug in the adapter (conveniently hidden in a magnetic compartment on the bottom) into your computer [and voilà](#).

Dress for success

You can eat a cake and have it too – no need to choose between looks and power, the GEM Plus Wireless provides you with both. Its elegant design fits any environment, while the addition of the [ARGB](#) backlighting makes the mouse a true cherry on top of a mousepad.

With the GEM Plus Wireless, you can backlight the ENDORFY logo, the scroll wheel, and even the strip around the back of the case. Pick your own color or use one of the predefined effects – you can also quickly change the configuration using the [dedicated](#) software.

Instant recovery

It's made for ultramarathons – but are you? The GEM Plus Wireless can operate at 100% for hours on end without even breaking a sweat, thanks to its heavy-duty battery and an extremely power-efficient sensor.

When the power level drops to dangerous levels (below 25%), the scroll wheel starts flashing red. It's a sign that a quick charging session is in order. But don't worry, you can just plug in the USB-C cable and continue gaming [without interruptions](#).

Live Click as you like

With the GEM Plus Wireless in your hand, you [live click](#) as you like. Thanks to the dedicated software, you have full control over the mouse and all its perks. Make your own rules – change the sensitivity and LOD, customize the ARGB backlight, and record macros.
