

Product name: ENDORFY Cordura Speed L
Product code: EY6B002

The ENDORFY Cordura Speed L is a hit [pad](#) that you can't miss. It's 45 cm wide, so you can glide over it without worrying that you'll end up on the tabletop. Its smooth surface makes your motions precise – no lag or jerky movements.

We've designed it with CORDURA® fabric, which has been used for years in military clothing, among other things. Combined with a water-repellent [armor surface](#) and thick stitching on the edges, it's an irresistible package. And you don't have to restrict yourself to just first-person shooters ;))

Hard-wearing [armor fabric](#) CORDURA®

If we had to summarize our pad in one sentence, we'd say it's hard-wearing. We've tested it under extreme conditions for many hours (this includes a survival simulator), and the Cordura Speed L still looked new... Well, what do you expect when you've got a military-grade [armor fabric](#) for special assignments in the palm of your hand?

CORDURA® is a protective fabric that's not afraid of fire, water, extreme temperatures, or critical situations. It effectively protects soldiers, motorcyclists, and survival geeks, among others.

Its dense structure makes it virtually [unbreakable](#). It can glide over asphalt, sandpaper, and knives without sustaining any major damage. That's why it's commonly used for tents, protective clothing, tactical footwear, and holsters... And our mousepad.

A Speed-type surface

With the Cordura Speed L, you'll hit your target with ease. Its smooth surface reduces annoying friction, giving you complete power over your mouse. It's as if it had a mind of its own (just in case, let's not give it any ideas about taking over the world).

Always at hand [under the mouse](#)

If you're spending half your life using your mouse, you know that rapid movements can sometimes move the mousepad as well. This can be annoying – especially when you're in the middle of a boss fight, and any accidental motions can cost you your [virtual](#) life.

That's why we've designed the Cordura Speed L to grip your desk firmly. It won't budge even when you frantically shake your wrists – just like your grandma when she insists you have seconds of potatoes at Sunday dinner.

A high-quality rubber underside prevents the mousepad from slipping. It's all about making your movements as precise as possible – because we know that in work and play there's no room for [fails](#) [random actions](#).

ENDORFY Cordura Speed L – main features:

- Exceptionally durable CORDURA® fabric
- Splash-proof surface
- Non-slip rubber base

- Speed-type surface
- Easily washable
- Size: 400×450×3 mm

ENDORFY Cordura Speed L – technical specifications:

- Product code: EY6B002
- EAN: 5903018664651
- Product type: mousepad
- Color: black
- Dimensions: 400×450×3 mm (L×W×H)
- Material (top):
 - Type: CORDURA®
 - Properties: waterproof
 - Color: black
- Material (bottom):
 - Type: rubber
 - Properties: non-slip
 - Color: black
- Edges:
 - Stitching: yes
 - Rounded: yes
 - Color: black
- Mouse/sensor compatibility:
 - Laser sensor: yes
 - Optical sensor: yes
- Warranty: 24 months

ENDORFY Cordura Speed L – logistics data:

- Retail box dimensions: 75×75×410 mm
- Weight (net): 0.362 kg
- Weight (gross): 0.468 kg
- Master carton dimensions: 415×340×480 mm
- Master carton weight (gross): 10.50 kg
- Product quantity in master carton: 20 pcs

Set includes:

- Cordura Speed L mousepad
- Safety instruction
