

- High-airflow optimized front mesh panel
- Side panel made of TEMPERED GLASS
- 3x 140mm PWM fans pre-installed

The CHIEFTEC APEX AIR presents an E-ATX chassis with a large mesh front panel and three pre-installed 140mm PWM fans that, in combination, are designed to enable high-airflow systems while maintaining low noise.

APEX AIR's 3x 140mm PWM fans are configured with 2 pre-installed in the front and 1 pre-installed in the rear, which creates a smooth airflow path from the front intake to rear exhaust.

The case is generous with space, offering support for GPU's up to 400 mm in length, CPU coolers up to 175mm in height and radiator support up to 360mm on the top, as well as up to 420mm in the front.

CHIEFTEC APEX AIR is ready to bring more airflow and better cooling to modern gaming systems.
